Staying Connected With our Clients

Our ability to support our Clients through the financing process and to “Listen to Your Needs” sets us apart from the competition. By having a strong understanding of your corporate mission and then providing supportive professional service advice we give you the competitive advantage that enables your success.

100% alignment with Clients

The Financing Life Cycle

Our fundamental commitment to understand your business allows us to customize both financial assistance and business advisory services that will grow your business positively.

Our Typical Clients require immediate Capital for the Following Reasons:

- High Growth
- Start Ups
- Mergers/Acquisitions
- Financial Restructuring
- Inventory Purchases
- Equipment Purchases
- Debt Consolidation

What GreenTech Genesis Capital does?

1. *Understanding your Business and Goals.*
2. *Knowing your stage of Business Growth.*
3. *Tailoring the right financing and business advisory services for your success.*

Private Financing Business Services

Over 25 years of combined Public and Private sector financings of over US\$3.5 billion in approved financings and over US\$500 million raised in Private Capital Equity. Our success comes from analysis and complete understanding of the required scope of the financing and mitigation of challenges. Our Process requires full engagement of GreenTech Genesis Capital to conduct a complete review of all Client materials that may impact your financing and your business.

Our strength is in our analysis, anticipation of objections, cash flow management projections, and document preparation which unlocks the major barriers to successful financing. Which is why we require 100% transparency and commitment of by our Client's team. Our work history and knowledge of the lending programs provides confidence for the underwriters.
